

## Meeting 11 January 2022

The meeting of ADD-ON\_SKILLS project – Advanced Digital Design course ON modern buildings developing SKILLS for young engineers – took place at MS Teams platform on 11 January 2021.

During the meeting, the progress of work on IO1, IO2 and IO3 was discussed.

Coordinators also agreed on the criteria for enrolment of students to the summer school in Poland.

The screenshots show the following content:

- Top Left:** A slide titled "Activities in which participated VTDK teachers" showing three categories: IO1 Online Modules (2 teachers), IO2 Book (5 teachers), and IO3 Syllabus (1 teacher).
- Top Right:** A slide titled "Materials and syllabus (VTDK team)" featuring a photo of a building under construction and the name "Aldona Tybenci, Vilnius College of Technologies and Design (Lithuania)".
- Bottom Left:** A slide titled "LECTURES" showing a "Lecture structure" flowchart. It includes boxes for "Duration of a single lesson: 1 hour", "Topic of the lesson", "Outlines", "Content of the lesson", "Glossary", and "Test game/video". A red arrow points from "Content of the lesson" to "Applied approach", which then points to "Test game/video". A note at the bottom says "Depending on the lesson content".
- Bottom Right:** A slide titled "IO2. Results" listing achievements: "Active and passive solar building design" (collected data, analyzed data), "HVAC systems and their control equipment" (discussed content, analyzed data, prepared list), and "Prepared part of first section of chapter". It also mentions "3 Teachers, 2 working days (11-01-2022)".

The next virtual coordinators meeting will take place on 22 February 2022.
